

Ethical Committee Approval Presentation Template

Should be a powerpoint presentation

Slide 1 – Title Slide

- **Title of the Study**
 - Font: *Times New Roman*, Size: **36**, Bold, Centred.
 - **Principal Investigator**
 - Name, Designation, Department.
 - **Co-Investigators**
 - Names, Designations, Departments (listed).
 - **Guide**
 - Name, Designation, Department.
 - Institution/Logo : *Northern Railway Central Hospital*
-

Slide 2–3 – Introduction

- **Heading:** “Introduction” (*Times New Roman*, Size **20**, Bold).
 - **Text:** Font size **18**, Line spacing **1.5**.
 - Should cover:
 - Brief background.
 - Importance of study.
 - Rationale for conducting research.
 - *Keep to 1–2 slides max.*
-

Slide 4–5 – Review of Literature / Research Evidence

- **Heading:** “Review of Literature” or “Research Evidence” (*Times New Roman*, Size **20**).
- **Text:** Font size **18**, line spacing **1.5**.
- Content:
 - Present **relevant studies** in bullet form.
 - Quote **key findings**.

- Add reference number in bracket (e.g., "...improved patient adherence (1)").
- 1–2 slides only.

Slide 6 onwards – (each on separate slides or grouped as needed):

1. **Research Question**
 - Text size **18**.
 2. **Rationale for conducting research/study, Justification or benefits**
-

Slide 7. Aim of the Study

- Text size **18**.

Objectives

- *Primary Objectives* – Heading size **18**, text size **16**.
 - *Secondary Objectives* – Heading size **18**, text size **16**.
-

Slide 8 onwards : Materials and Methods (*Times New Roman*, Size **20**, Bold). (3- 4 slides)

Sub Headings size **18**, text size **16**.

- **Study Setting or place of Study:** Departments involved / patient recruitment area
- **Study Design/Type:** eg. Randomized/Clinical/Observational/Prospective
- **Study Period/Duration:**
- **Study Population.**
- **Method of recruitment,**
- **Sampling Criteria:**
 - Inclusion Criteria.
 - Exclusion Criteria.
- **Sample Size & Calculation.**
 - Reference study
 - Calculation criteria/ parameters
 - Sample size Formula used & calculation
 - Justification for the sample size chosen (Max 100 words)
- **Sampling technique**
- **Type of Intervention, details of (Instruments / Questionnaire, Frequency and duration of intervention/follow-up of subjects (if relevant), Procedures and schedules, Dosage, formulations, schedules, duration of drug treatments/surgical technique, suture (if relevant), Withdrawal reason(s), Stopping rules, Adverse response / side effect procedures and conditions for breaking the codes if any.**
- **Outcomes (primary/secondary) of the study**
- **Permission to use copyrighted questionnaire/proforma**
- **Approval from governing bodies** (CDSCO/DCGI/DGFT) related to the research
- **Method of follow-up and tools used for assessment,**
- **Procedure for recording/controlling confounding variables, if any.**

- **Standardization of method and reference to methodology** should be given wherever necessary with specific method, equipment or procedures proposed to be used.
 - **Data Collection Method.**
 - **Data Management & Statistical Analysis.**
 - Mention procedure for data entry,
 - statistical methods/software for statistical analysis,
 - methods for handling missing data
-

Slide 12 Ethical Considerations

- Informed consent.
- Confidentiality.
- Risk–benefit assessment.
- Approval requirement.

Slide 13 Limitations of the Study

- Anticipated challenges.

2. Future Recommendations

- Scope for future research.
-

Slide 14 – References up to 10 most relevant and in order of appearance in the text

- **Heading:** “References” (*Times New Roman*, Size *20).
 - **Text:** Font size **18**, Line spacing **1.5**.
 - Format: Numeric order (Vancouver style recommended).
 - Should correspond to numbers cited in “Review of Literature.”
-

Slide 15 onwards – Annexures

- **Heading:** “Annexures” (*Times New Roman*, Size *20).
- Include:
 - Data collection form (if any).
 - Participant Information Sheet in English & Hindi
 - Informed Consent Form in English & Hindi
 - Any additional material required.
